Checkology® updates
July 2020

For educators

**Reimagined home screen** with one-click class management and a student preview (“View course”).

**Simplified class setup.**

**Standalone content library.**
For those who want to customize their students’ courses, a new drag-and-drop course builder where educators can add lessons, exercises, challenges, and fact-checking missions to their courses. The course builder will also auto-recommend supplemental content for courses.

The course builder also contains lesson guides.

And details about the difficulty level for each piece of content.
For students

In-platform support.

Clever, Schoology and Google single sign-on.

About NLP
NLP, a nonpartisan national education nonprofit, provides educators with tools and resources to teach their students how to navigate today’s complex information landscape and learn to judge the credibility of information for themselves.
